# **1. Introduction**

Welcome to the BRINGOLD DAO ecosystem in the decentralized BRINGOLD application, combining products and services of the Web 3.0 era on the TON blockchain.

## 2. The BRINGOLD Structure on the TON Blockchain

### The Blockchain

Blockchain is a decentralized digital system that uses a distributed database to store digital information. It replaces the traditional centralized storage system, providing greater security, fraud protection, and faster access to data. Technology continues to evolve and improve the lives of people all over the world. We are confident that blockchain will continue to be used to create innovative solutions in many sectors of the economy, where it will improve trust-dependent data automation.

What is a blockchain, let's highlight some of the main advantages:

1. Data protection
2. Security
3. Decentralization
4. High data transfer rate
5. Low transaction cost

TON blockchain is a decentralized L1 blockchain created by the Telegram team and developed by a community of independent developers. The TON blockchain is characterized by high performance, convenient infrastructure, and support for decentralized dApps applications and smart contracts.

### DAO

A DAO is a decentralized autonomous organization (an abbreviation for a decentralized autonomous organization).

According to the technical definition, decentralized autonomous organizations or DAOs are social organizations regulated by rules encoded in smart contracts, controlled by the organization's members and not influenced by a centralized regulator.

BRINGOLD DAO is a decentralized ecosystem, powered by smart contracts and a governance token that allows members to propose and vote on issues related to BRINGOLD activities. We aim to create a fully-fledged governance forum as part of our community building process, where all members of the DAO and holders of the governance token will have access. In the future, we plan to involve the holders of the governance token in approving the concept for project development.

In the long term, the community will become the foundation and dominant part of DAO BRINGOLD.

### 3. The BRINGOLD Telegram dApp

In order to scale BRINGOLD, we are creating an application for the Telegram community. We have transferred the main developments from the Polygon blockchain to the TON blockchain, as well as created new products for the GameFi sector:

- Brinland's flagship game
- Mini-games
- Prediction market
- Bonus farmin

At BRINGOLD dApp, digital asset security is a top priority. The dApp has a built-in Telegram wallet that allows users to securely store, send, receive, and exchange tokens.

### 4. Tokenomics

#### BRINGOLD tokens in the dApp

**BRIN** is the main token in the ecosystem, created to provide access to all services and products offered by the BRINGOLD dApp.

<b>BRIN</b>	Symbol	<b>BRIN</b>
	Maximum Supply	<b>1 000 000 000</b>

BRIN tokens can be purchased through the BRINGOLD dApp, on the Blum Launchpad, or on the STON.fi DEX exchange.

You can also sell BRIN tokens on the Blum Launchpad or on the STON.fi.

#### Distribution of BRIN Tokens

<b>Token Distribution</b>	<b>Maximum Supply 1 000 000 000 BRIN</b>
	<b>Total Supply 906 000 000 BRIN (1.11.2025)</b>
	Community 420 000 000 BRIN (42%)
	Burning 150 000 000 BRIN (15%)
	Treasury 100 000 000 (10%)
	Marketing 150 000 000 BRIN (15%)
	Liquidity 80 000 000 (8%)
	Team 100 000 000 BRIN (10%) locked, vesting

**BRINGOLD (BRING)** is the governance token of the BRINGOLD ecosystem.

<b>BRINGOLD</b>	Symbol	<b>BRING</b>
	Maximum Supply	<b>30 000</b>

BRING tokens will soon be available on the BRINGOLD dApp.

## **BRING Bonuses**

BRING is a bonus token that generates income for holders depending on user activity in the BRINGOLD ecosystem. Holding the BRINGOLD token grants the user the right to receive bonuses.

**BRINLAND (BRLD)** is the exclusive gaming token of the BRINLAND game on the BRINGOLD ecosystem. It provides holders with access to auctions, air drops, and exclusive events related to the BRINLAND community..

Also, after the launch of the BRINLAND game, BRLD token holders will have the exclusive right to acquire the most valuable asset of the game - the BRINLAND Arena - for battles, which can only be owned by BRLD holders. They will also receive lifetime rent for hosting battles in the arena, as well as advertising space for advertisers in the arena.

<b>BRINLAND</b>	Symbol	<b>BRLD</b>
	Maximum Supply	<b>1 000 000</b>

BRLD tokens will soon be available on the BRINGOLD dApp.

## **BRLD Bonuses**

BRLD is a token that rewards holders with income based on their activity in the BRINLAND ecosystem.

**NFT BRINLAND** is a unique digital asset on the BRINGOLD platform that is based on blockchain technology. It is a type of non-fungible token (NFT) that confirms its authenticity and uniqueness using blockchain technology. Each NFT exists in only one instance, unlike regular tokens or cryptocurrencies.

Players can buy, sell, win, exchange, collect, and receive bonuses by holding certain collections of NFTs. The BRINLAND game is expected to launch soon on the BRINGOLD platform.

BRINLAND is a unique tactical NFT card game built on the blockchain. It offers a variety of exciting battles for players to enjoy!

All the cards in the game are in the form of NFTs, which ensures the ownership of players and makes trading easier.

Players can collect a set of character cards (NFT races) with unique characteristics and use them to battle against other players. Additionally, there are artifact cards (NFT artifacts) for each race that

enhance the heroes' abilities and give them an advantage in battle. Gather powerful collectible decks and dominate the arena! For more information about the BRINLAND decentralized NFT game, please visit our website.

After launching the BRINLAND game, players can use their NFT cards to engage in battles and earn rewards for winning, significantly increasing the value of their assets.

The launch of the game will offer new opportunities for NFT holders, allowing them to showcase their strategic skills in team building and combat, and earn rewards for their efforts and competent strategies.

The sale of NFTs will be divided into several stages, with a total of 10 stages planned for the future.

## Stage 1

**All game NFTs from BRINLAND participate in battles and are divided into different status:**

NFT Race BRINLAND	Classic 1	8000 puzzles NFT x 4 Races	It's possible to collect 2000 NFT's x 4 Races	Free in PrimeBox	Mission: collect a complete NFT of free NFT puzzles for battles, collecting
	Classic 2	8000 puzzles NFT x 4 Races	It's possible to collect 2000 NFT's x 4 Races	Free in PrimeBox	Mission: collect a complete NFT of free NFT puzzles for battles, collecting
	Classic 3	8000 puzzles NFT x 4 Races	It's possible to collect 2000 NFT's x 4 Races	Free in PrimeBox	Mission: collect a complete NFT of free NFT puzzles for battles, collecting
	Rarity 4	1000 NFT x 4 Races		Available for purchase in the NFT section	Taking part in battles, collecting
	Rarity 5	900 NFT x 4 Races		Available for purchase in the NFT section	Taking part in battles, collecting
	Rarity 6	800 NFT x 4 Races		Available for purchase in the NFT section	Taking part in battles, collecting
	Epic 7	700 NFT x 4 Races		Available for purchase in the NFT section	Taking part in battles, collecting
	Epic 8	600 NFT x 4 Races		Available for purchase in the NFT section	Taking part in battles, collecting
	Legendary 9	500 NFT x 4 Races		Available for purchase in the NFT section	Taking part in battles, collecting
	Legendary 10	400 NFT x 4 Races		Available for purchase in the NFT section	Taking part in battles, collecting

## NFT Artifacts - essential in battles for building winning strategies, categorized by strength:

<b>NFT Artifacts BRINLAND</b>	Classic Power	8000 puzzles NFT Artifacts x 4 Races	It's possible to collect 2000 NFT Artifacts x 4 Races	Free in PrimeBox	Mission: assemble a solid NFT from free NFT puzzles to aid in battles, collecting
	Rarity Power	1000 NFT Artifacts x 4 Races		Available for purchase in the NFT section	Aid in battles, collecting
	Epic Power	800 NFT Artifacts x 4 Races		Available for purchase in the NFT section	Aid in battles, collecting
	Legendary Power	600 NFT Artifacts x 4 Races		Available for purchase in the NFT section	Aid in battles, collecting

**PrimeBox** is a special gift package that includes tokens and NFT puzzles as a reward for a certain amount of user activity on BRINGOLD. It will soon be available.

### NFT Collection Bonuses

NFT Collection is a collection of certain NFT BRINLAND cards..

NFT Race Collection is a collection consisting of at least 7 NFT Race cards from 1 classic to 7 epic cards of the same Race.

NFT Artifacts Collection is a collection consisting of 16 NFT Artifacts cards from 1 classic to 4 legendary for all 4 Races.

### NFT BRINLAND Collections:

<b>NFT Collection</b>	Epic 7 Race	NFT collection from 1 to 7 cards of the same Race
	Epic 8 Race	NFT collection from 1 to 8 cards of the same Race
	Legendary 9 Race	NFT collection from 1 to 9 cards of the same Race
	Legendary 10 Race	NFT collection from 1 to 10 cards of the same Race
	Legendary Power 4x4 Artifacts	NFT collection of 1 to 4 card Artifacts on all 4 Races

Holding a certain NFT collection gives the user the right to receive bonuses. The amount of bonuses depends on the status of the collection, and details will be provided soon.

**BRIN Points** are a part of the BRINGOLD dApp's bonus program. They are conditional units that accumulate and are debited, allowing users to perform actions within the BRINGOLD DApp without the right of receiving tokens or fiat match instead..

BRIN Points can be credited to your balance in the BRINGOLD dApp for performing certain actions:

- Farming in the Earn section.
- Purchase \$Brin in the Blum app.
- Invite friends via a referral link in the BRINGOLD dApp.
- Daily visit to the dApp BRINGOLD.
- Subscribe to Bringold socials through the BRINGOLD dApp.
- Complete tasks in the BRINGOLD dApp on the tasks page.
- Play mini-games on BRINGOLD dApp.

BRIN Points can be spent in the BRINGOLD dApp application as a partial payment of the product and services.

- Purchases in the BRINLAND section.
- Raffle tickets purchased in BRINGOLD dApp.
- To participate in raffles and other P2E mini-games on BRINGOLD dApp.

## 5. Referral system

The referral system is a marketing tool in the BRINGOLD DApp. It allows users to earn rewards in the form of BRIN Points or BRIN tokens by inviting new users through unique referral link.

## 6. BRINGOLD dApp Features

### ▪ GameFi

#### **BRINLAND**

Welcome to the BRINLAND GameFi World!

**BRINLAND** is a unique tactical P2E NFT card game based on the blockchain. In this game, you can find a lot of exciting battles.

Collect powerful decks and win battles. There is something for everyone in this game, as it combines interesting and fast-paced fights, exciting coin farming, and a powerful NFT trading system.

Mine, buy, and trade BRINLAND's NFT heroes to battle and win.

Players need to collect a set of character cards with unique characteristics and use them to battle other players. Additionally, there are artifact cards available for each race that enhance heroes and give them an advantage in battle. All cards exist as NFTs, which guarantees ownership and simplifies trading.

Players receive rewards in the form of tokens for winning battles, tournaments, and completing quests. They can also freely trade or exchange heroes on the NFT marketplaces or in BRINGOLD dApp, allowing them to not only have fun but also earn tokens and NFTs. To earn income, players do not need to be experts in blockchain technology - they just need to choose a strategy and learn to play BRINLAND.

The core of the BRINLAND game is one-on-one battles against another player with a similar rating. Each player has a limited amount of time to select cards from their collection to participate in the battle.

After this, the battle begins, where, according to specific rules, each combatant makes their own decisions and battle strategy. The game can end in either a victory for one player or a tie. The victor earns internal tokens and gains experience points, while the loser receives only a few experience points.

Each player's aim is to create an NFT deck that will win battles.

One of the benefits of the game is that everyone has a chance of winning, regardless of their experience, skill level, or the number of cards they have in their collection.

The BRINLAND game not only offers entertainment, but also provides an opportunity to earn through winning various battles and trading collectible items within the game. Join us now and discover the exciting BRINGOLD roadmap! Get ready for the launch of the BRINLAND NFT game on the BRINGOLD DApp on the TON Blockchain.

### **The decentralized game "LuckyCoin"**

The mechanism of the game: the first player makes a bet in points, the second player responds to the first player's bet with an equivalent amount of Brin Points. The system randomly determines the side of the coin for each player, and then randomly selects the winner.

### **The decentralized game «Raffle»**

Raffle is a game where a single winner can win the entire prize pool.

To participate, players purchase tickets using BRIN tokens or Brin Points. These tickets contribute to the prize pool for the round. The number of tickets purchased determines the size of the prize pool. There is no limit to the number of participants per round, and the winner is chosen randomly. The more tickets you purchase, the better your chances of winning!

### **The decentralized game «Lucky Wheel»**

Game mechanism: The player starts the spin of the prize wheel to receive prizes. The prize is determined randomly after each spin.

### **BRINGOLD Predictions**

BRINGOLD Predictions is a fun and interactive service that allows users to make predictions about future events. Based on their own strategies, users can create forecasts for various events.

Other mini-games will be added soon as well.

- **Earn**

BRINGOLD Earn allows users to earn bonuses in BRIN Points by holding digital assets such as BRIN, BRING and BRLD as well as NFT collections. All holders of these digital assets can benefit from this offer in the EARN section in the BRINGOLD dApp.

**Socials:**
